

Southampton

City Centre

**Closure of  
CENTRAL BRIDGE, SOUTHAMPTON  
12 Months from 23<sup>rd</sup> February 2010**

The closure of Central Bridge will affect all routes leading to and from Itchen Bridge (Toll Crossing); Albert Road North, Saltmarsh Road, Royal Crescent Road and Canute Road.

Commuters and Visitors need to be aware of long delays on feeder roads such as West Quay Road; Bernard Street; Town Quay; and the gyratory system at Orchard Place – Queen's Terrace – Platform Road.

Cruise and Ferry Passengers should be aware of delays to their journeys in and out of the Docks, in particular Town Quay; Isle of Wight crossing; and Dock Gate 4.

The 'CityLink' services to and from Town Quay to Southampton Central Station via City Centre run as normal but could be subject to delays at peak times.

For Southampton FC matches, please allow plenty of time for your journey on match days. Severe delays have been experienced recently and a number of roads have been subject to closure or diversion including Chapel Road, Anglesea Terrace, Elm Terrace, Albert Road North, Marine Parade and Paget Street. Football coaches are normally parked in Chapel Road closure between the junction of Paget Street and Albert Road North. Bus route 8A is diverted on match days – check with First Southampton for more details.
